

SCM 651 Business Analytics Peer Review

Due date:

Before the start of class in week 11.

Objective:

Evaluate the contribution of your team members to the homework assignments.

What to turn in:

Please upload a document with the names of your team members and one score for each student.

How to score:

1. Only score other member of your team; do not score yourself.
2. Use the scale below, but the **average for your team must not exceed 80 points**. You can use any number between 0 and 100.
3. You will receive your peer review score only if you submit scores for your team. **Failure to submit scores will result in a score of zero for you.** Other team members will not be penalized for the failure of a student to submit scores.

100 – Outstanding contribution: attended team meetings, completed assignments on time, he/she was key to integrating the homework assignments. Performance was substantially above everyone else on the team.

80 – Excellent contribution: attended most team meetings, completed tasks, and assisted in integrating homework assignments

60 – Good contribution: attended some team meetings, provided partial assignments, was around when homework assignments were assembled

40 – Marginal contribution: attended at least one team meeting, provided some input to the homework, remembered that there was a homework assignment due.

20 – Almost made a contribution: either attended a meeting or provided some input

0 – No contribution: Was he/she really on the team?
